

Edit Product Descriptions and Upload Images

The Product Marketplace is your online store, manage your product descriptions and upload the images you want to display in your store.

Image information

This system accepts .jpg and .png format images.

For cannabis products, you can use the same image for multiple variations of the same strain.

The screenshot shows a web interface for managing products. At the top, there is a search bar and a dropdown menu showing '1 to 20 of 20' items. Below this is a table with columns for 'Image', 'Name', 'Description', and 'Hide'. The table contains five rows of product data. To the right of the table is an edit form for a selected product. The form includes a 'No Image' placeholder, an 'Upload a new image' button with a 'Browse...' link, and input fields for 'Name' (containing 'Cured Waste') and 'Description' (containing 'Strain: Animal Cookies Quantity: 0 Weight: 2784.000'). There is also a 'Hide in store' toggle switch (currently turned on) and a 'Save' button.
